THE GHOST SHIP.

The Ghost Ship is based on the SS American Star transatlantic shipwreck. The ship was hit by a heavy storm and when it was being towed, the tug cut the cable for no apparent reason and the American Star went adrift. After several days without being spotted, it turned up on the beach of Garcey, Fuerteventura, where, split in two pieces, became the perfect setting for mysterious events. A work full of energy, mystery and intensity that will lead us through the cabins of this famous ghost ship. The work is commissioned by the Gran Canaria Wind Orchestra.

JOSÉ ALBERTO PINA.

José Alberto Pina is a Spanish reference in the world of band composition and conducting. He studied conducting at the Conservatory of Music of Murcia, also getting lessons with teachers like José Rafael Pascual-Villaplana, Sir Colin Davis (London Symphony Orchestra), Enrique García Asensio, Jerzy Salwarosky, John Phillips (King's College London), Jan Van der Roost, Jan Cober, Paolo Bellomia (Université de Montréal) Thomas Verrier, Lutz Köhler (Universität der Künste, UDK, Berlin), etc.

He is winner of the First Orchestral Conducting Competition "Ciudad de San Vicente del Raspeig" and the First National Wind Band Conducting Contest "Ciudad de Puertollano". He gets the 1st prize in the composition competition for band in La Font de la Figuera and he is awarded at the Second Latin American Band Composition Competition "Villa de Ortega" with the work "The Bermuda Triangle". He has been nominated for the Hollywood Music in Media Awards for the work "The Island of Light".

Develops its activity as a composer at Molenaar Edition with which recorded several CDs. His commitment to the band world has taken him to be jury in competitions, performing lectures, courses and MasterClass in conducting and composition with renowned bands in Spain, Holland, Belgium, Germany, United Kingdom, Switzerland, Italy, Portugal, Brazil, China, Japan and Argentina

ELECTRONIC SOUNDS.

The organization and development of this resource is not an easy task. The experience has given me conducting this work numerous times and with different bands may make my contribution helps. I recommend use two high-powered loudspeakers behind the musicians in the area of percussion and another two speakers behind clarinets and saxophones focused directly to the musicians. The conductor needs monitors in front of him to coordinate everything. Some bands add a subwoofer to give more spectacular sound. Use a good, powerful equipment, a proper equalization and precise volume is as important as having some good musicians. The audio is in stereo. If you prefer, it's possible to use a mono track with a click metronome for the conductor on one channel and the electronic sounds on the other, please ask to Molenaar Edition. Attached basic map for better understanding. The track can be downloaded for free when you purchase the work at Molenaar Edition. I hope you will enjoy this amazing experience.
